

Preventing the spread of new coronavirus infections

A message of Hakuba Village Mayor

Feb12, 2021

The alert level issued for Hakuba Village has been lowered

To all people related to Hakuba Village

I am a Hakuba Village Mayor, Masatake Shimokawa. I would like to inform that Nagano Prefecture has announced that the New Coronavirus alert level in Hakuba Village has been lowered to 2.

I would like to express my deepest gratitude to all the people in Hakuba Village, including restaurants, bars and other businesses, as well as the residents of the village, for their cooperation during the period when the Infection Alert Level 5 and the New Coronavirus Special Alert 2 were in effect, and I sincerely hope that everyone who has been infected will recover as soon as possible.

However, COVID-19 is not yet completely under control. Therefore, I would like to ask you to continue to comply with the requests from Nagano Prefecture to prevent the spread of infection, such as refraining from visiting areas where the infection has spread as much as possible.

The impact of COVID-19 has also been very devastating to the economy of the village, and I would like to thank all villagers for their cooperation in consuming the products in the village while taking care to prevent infection.

The best way to stop COVID-19 is to prevent it from spreading again. I would like to ask for your continued cooperation.
