- ① **The number of open days for bulky waste and recyclables collection sites at Matsukawa and the date of opening will change. →See page 2**
- ② **Please be sure to wash glass bottles inside, separate them into colorless, brown, and other colors, and place them in clear bags for recyclables.**

**Let's reduce waste. Cooperation and effort are needed.**

This is the fifth year for wide-area waste disposal from Omachi City, Hakuba Village and Otgari Village. The amount of combustible waste discharged to the "Kita Alps Eco Park," has decreased in all three municipalities due to the COVID-19. However, the ward's collection station still do not thoroughly separate refuse,

and there are concerns about increased facility maintenance costs and the longevity (operation period) of the facilities.

Village residents are encouraged to use this guidebook as a reference for proper garbage separation and disposal. Please always be aware of and practice the following 4Rs.

**- Refuse -**

**Do not buy or refuse to buy unnecessary items**

- Refuse single-use plastic bags or unnecessary wrapping
- Avoid any impulsive buying

**- Reduce -**

**Let's work to reduce waste.**

- Avoid using disposable items
- Choose long-lasting products
- To reduce food waste, cook and order just enough.

**- Recycle -**

**Recycle as a resource**

- Participate in group collections, etc.
- Buy recycled goods
- Composting Food Waste

**- Reuse -**

**Use repeatedly**

- Refill the contents
- Use repeatedly Repair and reuse.
- Reuse in any other creative ways.
- Give someone else who needs it.

**Our countersign  
The 4Rs!**

See Page 11-12 for the information about "Food waste decomposer" subsidy.

**● Garbage drop-off locations and collection days**

|  |  | Garbage sorting  |     |     |     |     |     |     | Bags  |  |

|   | Nov | 13, 20              |  |   |  |

## For lodging facilities, stores, and other businesses

| Waste from lodging facilities, stores, and other business establishments is required by law to be disposed of under the responsibility of the business. Therefore, please contact a Hakuba Village-approved the waste-disposal service vendor, and outsource your garbage disposal to them. Please dispose of garbage properly. | The list of Licensed Waste Collectors |           |               |

Below is how to utilize the old designated non-burnable garbage bags.

- Use as an inner bag for clear bags of glass and ceramic scraps that break easily.
- Use as a bag for recyclables. Use a magic marker to write an X sign on the garbage title on the surface of the bag, so as not to mislead anyone who sees it.

| <b>White Tray</b> | Your ward Collection Station | Hakuba Recycle Center | Matsukawa Bulky garbage Station | Kita-Alps Eco Park |

- White tray only for both sides
- Some supermarkets collect it.

## How to dispose of them

Wash and dry them

Pack in clear plastic bag

| Recycle     | Collection Site              |                       |                                 |                    |
|-------------|------------------------------|-----------------------|---------------------------------|--------------------|
| PET Bottles | Your ward Collection Station | Hakuba Recycle Center | Matsukawa Bulky garbage Station | Kita-Alps Eco Park |

**Eligible products are those with the mark shown at left**

**The following should not be mixed in**

- The bottles of Beverages, Alcoholic beverages, Soy sauce, Dressings, etc.

**How to dispose of them**

The cap and the label must be removed

- PET bottles that has not been cleaned,
- PET bottles that are difficult to remove grease, etc.
- Glass bottles, Paper containers, etc.

Dirty plastic bottles should be disposed of with **Burnable Garbage**  
Bottles with  left mark, dispose as Plastic Containers & Packaging

Bottles without  mark

| Recycle       | Collection Site              |                       |                                 |                    |
|---------------|------------------------------|-----------------------|---------------------------------|--------------------|
| Glass bottles | Your ward Collection Station | Hakuba Recycle Center | Matsukawa Bulky garbage Station | Kita-Alps Eco Park |

1.8-liter bottles of sake, soy sauce, vinegar, etc. and beer bottles should be returned to the retailer if possible. Only unbroken bottles. Please dispose of milky bottles and stained bottles in the glass and ceramic scrap category on p. 5. If recyclable glass bottles are disposed of with glass or ceramic waste, they will be landfilled. Always dispose of them as recyclables.

The paper label does not need to be removed.

①Remove caps and aluminium covers. Be especially careful with wine bottles. Be sure to remove any adhering metals.

②Be sure to wash the inside of the bottle. Then, please dry them.

③Separate them into three colours - Colourless, brown and other colours - and dispose of them in clear bags of each colour.

| Recycle       | Collection Site              |                       |                                 |                    |

| Recycle<br>Home Appliances<br>4 Items | Collection Site |  |                                       |  |
|                                       |                 |  | Matsukawa<br>Bulky garbage<br>Station |  |

The following four types of home appliances: Televisions, Refrigerators and Freezers, Washing machines and Clothes dryers, and Air conditioners) are subject to **the Home Appliance Recycling Law**, which stipulates that **the person who emits them must pay a recycling fee**. Please dispose of them in the following manner.

- The emitter delivers the equipment to the retailer from whom it was purchased.
- When replacing the old equipment to new equipment, the previous equipment is handed over to the retailer.
- If you do not have the dealer where you purchased the item or are unsure, take it to a bulky waste recycling collection point for disposal. A fee will be charged for disposal.
- Alternatively, you can go to the post office to complete the procedures and pay the appliance recycling fee in advance, and request the next business to collect your appliances. For information on delivery charges and the date to collect, call Kazama Co. Ltd., at 0261-72-4591.

| Item   | Disposal Fee | Details       |                            |
|--|--------------|---------------|----------------------------|
|  |              | Recycling fee | Transportation and storage |
| TVs (all types, 15-inch or smaller)                            | ¥4,070       | ¥1,870        | ¥2,200                     |
| TVs (all types, 16-inch or larger)                             | ¥5,170       | ¥2,970        | ¥2,200                     |
| Refrigerators and freezers (less than 170 liters of contents). | ¥5,940       | ¥3,740        | ¥2,200                     |
| Refrigerator and freezer (over 171 liters of contents).        | ¥6,930       | ¥4,730        | ¥2,200                     |
| Washing machine, Clothes dryer                                 | ¥4,730       | ¥2,530        | ¥2,200                     |
| Air-conditioner  | ¥3,190       | ¥990          | ¥2,200                     |

**When you take them to the Matsukawa Bulky Garbage Collection Site**

- Refrigerators, freezers, washing machines, and clothes dryers should be emptied.
- Disassembled equipment will not be accepted.
- You will be given a home appliance recycling ticket at the site. Please keep a copy for yourself.
- Professional refrigerators, freezers, vending machines, etc. should be disposed of in accordance with the Fluorocarbon Recovery and Destruction Law. (See page 11)

| Bulky Waste | Collection Site |  |                                 |
|-------------|-----------------|--|---------------------------------|
|             |                 |  | Matsukawa Bulky garbage Station |

In addition, the following bulky garbage disposal fee is only a reference price because it changes due to changes in the purchase market and the revision of the consumption tax rate.

You can't put Bulky Waste out at the Ward Garbage Station, even if it's large enough to fit in a designated burnable garbage bag or metal bag.

- Among small appliances, those that use electricity or batteries are "small appliance" items. (See page 9)
- Be careful when hauling knives, mower blades, and other cutting tools to avoid injury.
- If not separated by item, the fee will be for mixed waste.
- When transporting by automobile, pack waste securely so that it does not fall onto the road.

| Item   |                            | Fee  |        |
|--|----------------------------|--|--------|
| Only if there is no composite material other than metal attached to the product.   |                            | Free   |        |
| Aluminum sashes, Aluminum wheels, House pipes, Steel wheels, Steel cabinets<br>Note: Fees may apply depending on metal prices.   |                            |  |        |
| Heat-retention pot, Cushion, Long cushion, Shovel, Tub, Barre, Bucket, Polyethylene tank (20 liters or less), Wardrobe box, Tire (Unicycles and Bicycles), Racquet, Iron, Fire extinguisher (empty), Electric razor, Batterie, Camera, Golf club, and other similar small items.   |                            | ¥600   |        |
| Chair, Unicycle (for playground equipment and transportation), Humidifier, Gas range, Ventilation fan, Vacuum cleaner, Wooden tub of steaming hot rice, Kotatsu board, Lighting fixture, Dish dryer, Rice cooker, Bidet Seat, Fan, Telephone, Toaster, Fan heater, Electric pot, Baby chair, Hot plate, Massager, Mixer juicer, Sewing machine (tabletop type), Clothesline, Water heater, Radio cassette player, Stove  |                            | ¥850   |        |
| Carpet, Kotatsu, Legless chair (for one person), Bicycle, Rug, Suitcase, Ski board, Ski boots, Snowboard, Snowboard boots, Snow dumpers, Speakers, Tatami mat (less than 1 tatami), Desks and table (up to 90 cm long), Chest of drawer (up to 200 cm in total height and width), Electric blanket, Microwave oven, Bedding, Urethane mattresses, VCRs (DVDs, CDs, etc.), Stroller, Yoshizu, Printer, Cash register      |                            | ¥1,200   |        |
| Glass, Ceramics, Incineration ashes (limited to Charcoal briquette for Kotatsu, Charcoal briquette and Firewood, about 30 liters in a bag)   |                            | ¥1,500   |        |
| Motorcycle, Wheelchair, Sofa (with springs for one person), Dishwasher, Table top stereo set, Washbasin cabinet, A tatami mat, Chest of drawers, Shelve (up to a total height and width of 350 cm), Desk-Table (over 90 cm long), Electric carpet, Sink, Bed (mattresses are not included), Computer (CRTs are not included), CRT display, Sewing machine (foot-mounted), Word processor, Magnetic bedding (mattresses), |                            | ¥2,300   |        |
| Small farm equipment (Management equipment, Cultivator, Rice planter, Binder, etc.)  |                            | ¥2900  |        |
| Spring mattress (up to semi-double)  |                            | ¥3500  |        |
| Organ, Electronic piano, Massage chair, Sofa (with spring, seating for two or more people), Water heater (rechargeable), Spring mattress (double size), Electric senior car, Electric wheelchair, Electric bed for nursing care, Fireproof safe (tabletop type for home use)   |                            | ¥6000  |        |
| Wood waste, Fresh wood (per m3), Rootstock (with soil: +1,000 yen)   |                            | ¥8,500   |        |
| Waste plastic and mulch (per m3)   |                            | ¥1,2000  |        |
| Mixed waste (per m3)   |                            | ¥12,000  |        |
| Tires  | Up to a standard-sized car | Without wheels ※Spiked tyres are an additional ¥500.   | ¥550   |
|  |                            | With wheels ※Spiked tyres are an additional ¥500.      | ¥650   |
|  | Medium-size car.           | Without wheels ※Spiked tyres are an additional ¥1,000. | ¥2,400 |
|  |                            | With wheels ※Spiked tyres are an additional ¥1,000.    | ¥2,700 |

- Matsukawa bulky waste and recyclables collection point is operated by a waste disposal company.
- For items other than those listed left, the rates for the same type or similar items will be used.
- Left list is the price for one piece, one unit, one foot, and so on and on.
- If the waste is not separated by type when you arrives, it will be charged at the mixed waste rate.
- Small appliances with non-metallic composite materials adhering to them will be charged due to the drop in prices in the market.

**Accepting "Burnable Bulky Waste" at Kita-Alps Eco Park**

**Non-business** Burnable Bulky garbage that can be incinerated can be brought to the Kita-Alps Eco park by you.

**[Example of Garbage]:**

Futons (Bedding), Carpets, Furniture, Grass, Branches of tree, Plastic Products  
**(Less than 5 cm in diameter, less than 180 cm in length, and less than 5 cm in thickness)**

**[Notes]:** Cut into pieces of 50 cm or less in length and 5 cm or less in diameter and thickness, and place them in designated Burnable Garbage Bags to be taken to the ward's garbage stations as "Burnable Garbage."

**[Fee]:** ¥200 per each 10 kg

**[For inquiries]:** Kita-Alps Eco Park TEL: 0261-85-5311

| Collection Site |                                 |
|-----------------|---------------------------------|
| Other items     | Matsukawa Bulky garbage Station |

Professional Refrigerators and Freezers, Air conditioners, and Vending Machines are subject to the Fluorocarbons Recovery and Destruction Law. The collection and destruction of gas is mandatory and the following fees are required.

| Item   | Freon gas filling volume | Processing fee |
|--|--------------------------|----------------|
| Professional Refrigerators and Freezers, Air conditioners and Vending machines | Less than 3 kg           | 15,000円        |

※If the amount of chlorofluorocarbon gas filling is more than 3kg, please consult with a waste disposal company directly.

Each household can apply directly to the manufacturer by phone or through the website to pick up computers that are no longer used at home. If you are unable to contact the manufacturer, please apply the "PC3R Promotion Association: <http://www.pc3r.jp/> Please note that computers displaying the left symbol do not require payment of the recycling fee.

Please dispose of motorcycles at a "motorcycle disposal store": Haiki-Nirinsha-Toriatsukai-Ten" or "designated pick-up counter (: Shitei-Hikitori-Madoguchi)" whenever possible. If the vehicle is eligible and meets the trading standards, you don't have to pay the recycling fee. The contact information is "Motorcycle Recycling Call Center (: Nirinsha-Recycle Call Center)" at 050-3000-0727. or check their HP: <http://www.jarc.or.jp/motorcycle/>

Fire extinguishers no longer needed at home are recycled by fire extinguisher manufacturers and organizations. Items that are past their expiration date, rusted or corroded, scratched or deformed, or contain powder fire extinguishers inside will also be collected. For more information on collection methods and disposal costs, please call the Fire Extinguisher Recycling Promotion Center (: Kabushiki-Kaisha-Shoukaki-Recycle-Suishin Center" at 03-5829-6773, or check their HP: <http://www.ferpc.jp/> Open 9:00 - 17:00 (Except Saturday, Sunday and National Holiday, and 12:00-13:00)

**Reduction of household and Business waste**

**Let's cut down on food scraps**

First, try to avoid food scraps. That is, check your refrigerator and food storage areas before you shop. That way, you won't be wasting food shopping. Also let's make sure we use up all the ingredients. Let's try to rearrange and eat up the leftover food, too.

In addition, it is the moisture content that causes the odor and weight of food scraps. Once the food scraps have absorbed liquid and become bloated, they won't release moisture. Try to keep food scraps as dry as possible during cooking to prevent them from absorbing excess water.

**The key to reducing waste is reducing food scraps.**

**Let's try home processing of food scraps.**

There are many ways to process food scraps at home.

- ① Use an electric food scrap processor.
- ② Use cardboard composting substrates and wooden crate food scrap processors.
- ③ Use compost containers or BOKASHI containers (: This fertilizer is made by fermenting organic fertilizers such as rice bran, coffee powder after extraction, and bran, mixed with soil and rice husks. Mixing them into the soil is called BOKASHI blending.)
- ④ Use disposer machine processor

Hakuba Village has a subsidy program for village residents to purchase household food scrap disposers.

Approximately 80 percent of food waste is wetness. The moisture control measures will reduce the weight of the garbage and keep your district's garbage collection stations hygienic. **Drain watery food scraps thoroughly.**

| Type of food scrap processing   | Subsidy amount   | Remarks  |
|---|--|--|
| Home Electric Food Scrap Processor  | Up to two-thirds of the purchase price with a maximum of 40,000 yen  | One machine per household<br>Please contact the Resident Division, Hakuba Village office before purchasing.  |
| Compost-type food scrap processor<br>Wooden crate compost-type processor (called "WAKUWAKU compost") or plastic bucket compost (: food scrap composting container bucket compost) | Up to two-thirds of the purchase price with a maximum of 15,000 yen  | Please contact the Resident Division, Hakuba Village Office before purchasing.<br>Bio-Z used for WAKUWAKU composting is sold at the Resident Division. (You can substitute a store-bought fermentation accelerator.) |
| Disposal machine type   | Up to two-thirds of the purchase price With a maximum of 40,000 yen  | One machine per household<br>Please contact the Resident Division, Hakuba Village Office before purchasing.  |
| Food scrap composting base material "PAKKUN"  | A subsidy of ¥382 per one is available.<br>The regular price is 666 yen per one, so you can buy one for 284 yen. | Available at the A-Coop HAPIA  |

### “WAKUWAKU Compost”

It is most suitable for facilities that generate large quantities of food scraps, such as businesses. We also have examples of several families working together on this project.

Food scraps are placed daily in this crate, sprinkled with Bio-Z, and then rice or buckwheat hulls are placed on top of it. Repeat the process. It is possible to process 20 to 30 liters of food scraps per day.

WAKUWAKU Compost is also handled by a private volunteer organization, Team Hakuba Earth(: Hakuba Eath Tai)

#### ◎Collection of Confidential Documents

Hakuba Village will hold a free collection of confidential documents once a year (scheduled between September and October) in order to reduce the amount of burnable garbage and promote recycling.

Confidential documents are documents discharged from a business or home that must be kept confidential for business purposes or that contain personal information. For example, inn ledgers, accounting books with retention periods that have expired, etc. are confidential documents. After collection, it is transported and stored under strict control, and then dissolved at a paper mill to be used as base material for the paper manufacturing process. The date and time will be announced in public announcements and other media. Please observe the following rules and regulations.

- ① Only paper will be accepted.
- ② Specialty papers such as thermal paper, fax paper, receipts, crimped postcards, photographs, and adhesive sheets are not accepted.
- ③ Carbon paper and photocopied paper that does not require carbon should be placed in a separate box and clearly marked as such on the surface of the box.
- ④ File hardware, plastic and metal clips, and strings can be left attached.
- ⑤ We accept up to 10 cardboard boxes.
- ⑥ Be sure to place the disposal documents in a cardboard box and seal it tightly. Hakuba Village will not be held responsible if the documents scatter during transportation.

#### ◎Collection of Waste Paper

Hakuba Village collects used paper twice a year (in May and November) with the cooperation of the Shirouma Women's Association (:Shirouma Josei kai). The date and time will be announced through newspaper inserts and publicity.

**We accept "shredded paper scraps, thermal paper, and non-carbon copy paper," which are not normally accepted as recycled paper.**

#### ◎Collection of unused tableware

Unused and broken tableware dishes will be reused as basic materials for new dishes, which will inevitably reduce the amount of landfill waste. This is the purpose of the collection of unused tableware. After collection, dishes will be turned into new dishes or industrial materials. Tableware recycling has begun throughout Japan.

Hakuba Village holds this event once a year (on a Sunday between September and October) with the cooperation of the Hakuba Village Tableware Recycling Promotion Association, a private organization (:Hakuba-mura Shokki Recycle wo Susumeru Kai. The date and time of the event will be announced in newspaper inserts and publicity.

#### ◎Resource Collection for Elementary and Junior High School Groups

Elementary and junior high schools and various organizations in the village each collect aluminum cans and other resources.

The proceeds from the collections are used to support the activities of school children and various organizations, and this activity also serves as a learning experience in recycling. The date and time of the event will be announced in newspaper inserts and publicity.

**[Hazardous and Toxic materials]**

Pesticides (and containers too), Lacquer, Liquid paint, Fuel oil, Paint thinner, Engine oil, Machine oil, Propane containers, Flammable, Pungent odor or toxic, such as a fire extinguisher with contents  
 ※Ask the dealer, the fuel store, or the industrial waste disposal company to pick it up.

**[Medical Disposal]**

Syringe needle and its containers, Medical supplies,  
 ※Consult your health care provider, distributor, or purchaser.

**[Industrial waste]**

Waste from non-home sources, Items that are required by law for each type of industry should be disposed of by an industrial waste disposal contractor.

**Building material waste:**

Exterior wall materials, interior materials, roofing materials, insulation materials, structural materials such as columns, flooring materials, waterproof sheets, concrete scraps, exterior stone materials, etc.  
 ※Ask the dealer, distributor, or purchaser to pick it up.  
 ※Agricultural vinyl, mulch, etc. should be put out for collection by JA.  
 ※Miscellaneous wastewater (sludge) should be requested to Yamada Shokai Company. Dedicated phone number for application: 0261-23-4446
